Figure 10-10: Reinforcement construction details for various types of concrete slabs. The figure is divided into two main sections: the left section shows details for slabs with different support conditions (e.g., edge, internal, corner), and the right section shows details for slabs with different reinforcement layouts (e.g., top, bottom, middle). Each detail includes a cross-section view and a corresponding reinforcement layout plan view. The reinforcement layout plan view shows the distribution of reinforcement bars (top, bottom, middle) and the spacing between them. The cross-section view shows the slab thickness, the position of the reinforcement bars, and the support conditions. The figure is labeled with various codes and dimensions, such as "10-10", "10-11", "10-12", "10-13", "10-14", "10-15", "10-16", "10-17", "10-18", "10-19", "10-20", "10-21", "10-22", "10-23", "10-24", "10-25", "10-26", "10-27", "10-28", "10-29", "10-30", "10-31", "10-32", "10-33", "10-34", "10-35", "10-36", "10-37", "10-38", "10-39", "10-40", "10-41", "10-42", "10-43", "10-44", "10-45", "10-46", "10-47", "10-48", "10-49", "10-50", "10-51", "10-52", "10-53", "10-54", "10-55", "10-56", "10-57", "10-58", "10-59", "10-60", "10-61", "10-62", "10-63", "10-64", "10-65", "10-66", "10-67", "10-68", "10-69", "10-70", "10-71", "10-72", "10-73", "10-74", "10-75", "10-76", "10-77", "10-78", "10-79", "10-80", "10-81", "10-82", "10-83", "10-84", "10-85", "10-86", "10-87", "10-88", "10-89", "10-90", "10-91", "10-92", "10-93", "10-94", "10-95", "10-96", "10-97", "10-98", "10-99", "10-100".
